WHOLESALE PRICE LIST
FOR THE TRADE ONLY
FALL 1916

SPECIALTIES
AZALEAS, RHODODENDRONS, KALMIA, BOXWOODS, HOLLY, IRISH YEW, ETC.
TERMS AND CONDITIONS

(PLEASE READ CAREFULLY)

This Wholesale Price List is for the trade only.

Prices herein are strictly net. Any items quoted in Retail Price List and not found herein will be supplied at 25 per cent discount from retail price.

Quantity Rates apply as follows:

- Less than 5 of a kind at each rate.
- 5 or more of a kind at 10 rate.
- 50 or more of a kind at 100 rate.

Terms to customers of approved credit are 60 days net from date of invoice unless otherwise arranged; 2 per cent cash in 10 days. Buyers unknown to us will please give bank or trade references. If C. O. D. shipment is wanted send one-third of amount of order in advance.

Transportation—Please state whether to ship by express, freight or water. If no definite instructions are given we will use our best judgment. When goods are shipped from Eureka by water our prices are understood to be f. o. b. San Francisco or Portland, packing charges extra.

Packing—Under the present terms of the “Western Classification” nursery and florists’ stock completely boxed in less than carload lots takes third class rate. Hence whenever practicable we will pack in this manner and charge for cases at actual cost. The difference in the freight will usually offset the packing charge and customers should be certain they are getting the 3rd class rate on shipments so packed.

Claims—All goods travel at buyer’s risk and our receipt from transportation company is to be held as evidence of satisfactory condition at that time. Before receipting for shipment examine it to see if in apparently good shape. If injured in transit memorandum should be made on freight bill and claim filed with transportation company. If there is any complaint as to shortage, grade or quality of goods it must be made within ten days after goods arrive. Otherwise it will be assumed that shipment is accepted as satisfactory.

Our Motto is “Quality First” and goods not fully up to our high standard will not be sent out. Any goods not up to representation may be returned at once.

Previous Quotations are hereby cancelled.

COTTAGE GARDENS NURSERIES INC.

Eureka, Calif., Nov. 15, 1916.

CHAS. W. WARD, President.

NURSERIES

Eureka. Eden Nursery. The main establishment in the plant and tree division. Azaleas and Rhododendrons as well as all other Broad-leaved Evergreens and Conifers are propagated and grown here.

Eureka. “C” St. Testing Grounds. Mainly devoted to tests of new and rare bulbs both in open ground and under glass.

McKinleyville (Humboldt County). Main bulb farm. Here we grow millions of “Dutch Bulbs”—Tulips, Narcissus, Hyacinths, Crocus, etc., as well as all herbaceous perennial stock.

San Jose (Santa Clara County). Located on State Highway to Oakland near Coyote Creek Bridge. Sales headquarters, primarily for S. F. Bay region. Extensive lath houses enable us to carry in stock large and complete assortment of Eureka grown stock, from which orders can be filled at short notice. Deciduous trees and shrubs are grown here.

Queens, Long Island, N. Y. Headquarters and nurseries of the Cottage Gardens Company, an independent but affiliated corporation, Chas. W. Ward being the founder and president of both.

CATALOGS AND PRICE LISTS

Preliminary Retail Catalog. Profusely illustrated. Gives origin of our nurseries, Eastern and Western. Contains brief descriptions of our leading lines. Prices not now in force.

Retail Price List, 1916-1917. Quotes current retail prices on all lines except bulbs.

Wholesale Price List, Fall 1916. This booklet.

Wholesale Price List, Spring 1917. Will list all forcing stock for early fall delivery including Dutch Bulbs, Azaleas, Rhododendrons, Kalmias, Ericas, Hydrangeas, etc., etc.
AZALEAS

AZALEA INDICA

Our available supply of Eureka grown stock for this season's delivery is exhausted, but as an accommodation to our customers we offer the following out of our Belgian importations provided the plants arrive in condition for reshipment. Sizes are measured across the crown.

JAPANESE AZALEAS

Both the following are evergreen and very hardy.

Hinodegiri

The most popular Japanese variety. Leaves small and rounded; flowers single, intense and dazzling red covering the whole plant. Blooms early and can be forced.

Maxwelli

A magnificent new Japanese variety. Flowers are single, carmine red and very large, up to three inches across. Hardy and should thrive wherever Hinodegiri succeeds.

DECIDUOUS AZALEAS

Anthony Koster. Hybrid between A. mollis and A. sinensis with large, very rich yellow flowers. This and the following are beautiful and valuable novelties.

Mme. Anthony Koster

In the same class as preceding variety. The flowers are apple-blossom pink and wonderfully attractive.

Daviesi

A "Ghent" Azalea bearing large white flowers. Excellent for forcing.

Rustica fl. pl.

Double flowering mollis hybrids in assorted varieties and colors.
RHODODENDRONS

One of our great specialties. The soil and climate of Humboldt County produce such magnificent specimens of native Rhododendrons that it is not at all surprising that we can grow the hybrids with such splendid results.

All varieties listed are suitable for planting outdoors on the Pacific Coast. *Varieties starred are used for forcing.

In all cases the heights are only approximate as the growth of different kinds varies greatly; grading is by number of buds.

SPECIALTIES

(NEWLY IMPORTED)

* Chevalier Felix de Sauvage .......... 8-10 buds, about 15 in. 6-8 buds, about 15 in. The best crimson forcer. Early and excellent.

* Cynthia .................. Extra fine plants 18 in. diam., heavily budded for forcing. Good plants with 8-10 buds, about 15 in. Good plants with 6-8 buds, about 15 in. Brilliant rose or bright red. A fine early forcer.

* Fastuosum fl. pl. .............. 8-10 buds, about 15 in. 6-8 buds, about 15 in. Decidedly out of the ordinary with its double lavender flowers. Very early and a favorite for forcing.

* Gomer Waterer ................ 8-10 buds, about 15 in. 6-8 buds, about 15 in. Various described as light lavender, salmon or white. Color varies with conditions. Flowers almost as large as Pink Pearl. An excellent forcer to follow the other varieties in this group which are earlier.

* Pink Pearl .................. Extra fine plants 18 in. diam., heavily budded for forcing The Queen of all forcing Rhododendrons. Giant trusses with beautiful rose-pink blooms. Individual florets 3½ to 5 inches in diameter.

GENERAL COLLECTION

(EUREKA GROWN)

10-12 buds about 22 in. .......... 15-18 in. 8-10 buds about 18 in. 6-8 buds about 15 in.

Abraham Lincoln, Rosy lilac

Album Grandiflorum, White

Atrosanguineum, Dark scarlet

Boule de Neige, White

Caractacus, Crimson

Chas. Dickens, Dark scarlet

* Everestianum, Rosy lilac

* Gen. Grant, Rosy red

Giganteum, Bright rose

H. H. Hunnewell, Rich crimson

H. W. Sargent, Crimson

* John Waterer, Crimson

Kettledrum, Crimson

* Lady Armstrong, Pale rose

* Lady Clermont, Scarlet

* Lady Powerscourt, Rosy crimson

Mrs. Milner, Rich crimson

* Mrs. R. S. Holford, Rich crimson

* Parsons' Gloriosum, Soft rose

Parsons' Grandiflorum, Rose

* President Lincoln, Lilac rose

KALMIA

Kalmia latifolia; MOUNTAIN LAUREL:

CALICO BUSH .......... 15-18 in. 12-15 in.

Beautiful flowering shrub native of Eastern U. S. Flowers vary from deep pink to nearly white. When planted out requires about the same conditions as Rhododendrons. Extensively and increasingly used for forcing.
BOXWOOD

We carry a very heavy stock of this popular formal plant in Pyramids and Standards. The former are broad for their height, full and symmetrical.

IRISH YEY

One of our leading specialties is this beautiful and popular tree. Its dense somber foliage and stately columnar habit lend it an air of distinction not possessed by any other similar plant. The abundant red berries add greatly to its beauty.

HOLLY

We propagate and sell only grafted or budded plants. Seedlings are entirely unreliable and at least 75 per cent are males which do not bear berries. Every plant we offer is of the self-fertile type which will bear and please your customers.

Berdled Holly (newly imported)

Well berried plants: 2½ to 3 ft. 1.50 13 50 125 00

Under normal conditions Hollies berry very heavily at Eureka, but all our plants were transplanted last spring and are not well berried this season.

“Pyramidal” type (berry bearing 4 to 5 ft. 2.00 17 50 160 00 but not well berried at present) 3 to 4 ft. 1.50 12 50 110 00

Variegated Holly. Golden King 1½ to 2 ft. 5.00

CONIFEROUS EVERGREENS

(Bulled from the field unless otherwise stated)

Cedrus atlantica glauca 3 to 3½ ft. 2.25 20 00 180 00
BLUE Mt. ATLAS CEDAR. One of 2½ to 3 ft. 1.50 12 50 110 00 the most beautiful trees in the 1½ to 2 ft. 7.50 70 00 world. Foliage intense silvery blue.

Cedrus deodara verticillata glauca 2 to 2½ ft. 1.50 12 50 110 00 A form of the Deodar with stiffer 1½ to 2 ft. 7.50 70 00 branches and very glossy foliage.

Chamaecyparis lawsoniana alumi 12 to 15 in. 3.00 25 00
A variety of Lawson Cypress of erect, almost fastigiate growth. Foliage intensly glossy. Very fine.

Chamaecyparis lawsoniana filifera glauca 6.00 50 00
Although a variety of Lawson 1 to 1½ ft. Cypress it has little resemblance to it as the secondary branchlets are thread-like, drooping and somewhat glaucous. Novel, interesting and handsome.

Chamaecyparis lawsoniana “Triomphe de Boskoop”

Another beautiful form of Lawson 3 to 4 ft. 1.75 15 00 140 00 Cypress. Foliage intense silvery 2½ to 3 ft. 10.00 90 00 blue. Hardier than the type. 2 to 2½ ft. 7.50 70 00

Chamaecyparis lawsoniana wisselli 1 to 1½ ft. 5.00 45 00
New variety of very graceful pyramidal habit and compact yet vigorous growth. Foliage has a fine blue color.

Chamaecyparis nootkatensis 1½ to 2 ft. 5.00 40 00
NOOTKA SOUND CYPRESS. Growth 1 to 1½ ft. 4.00 35 00 pyramidal and compact. Foliage deep, dark green.
Chamaecyparis obtusa ............ 5½ to 6 ft. Each Per 10 Per 100
JAPANESE RETINOSPORA (Trained-
ed). Imported from Japan where 4½ ft. to 5 ft. 8 00 75 00
they have been trained into dense, compact forms. Their 4 00 45 00
are beautiful specimen plants and 3 35 20 00
thoroughly acclimated, making them 2½ ft. to 3 ft. 2 75 25 00
superior to newly imported stock. 2 25 20 00
Chamaecyparis obtusa aurea ......... 3 to 3½ ft. 50 50 00
GOLDEN JAPANESE RETINOSPORA. Shrub 3 00 35 00
(Trained). An intensely golden-hued 2 to 2½ ft. 2 75 25 00
form of preceding. Has same habit 2 00 175 00
and is wonderfully effective.
Chamaecyparis obtusa compacta .... 3 to 3½ ft. 1 75 15 00
Less formal than the two preceding 2½ ft. to 3 ft. 12 50 110 00
varieties. A remarkably handsome 2 00 85 00
small tree with rich green foliage 1 00 50 00
and compact but not at all stiff 3 00 50 00
habit.
Chamaecyparis pisifera filifera ....... 3 to 4 ft. 2 75 25 00
THREAD-BRANCHED JAPANESE GOLDEN CHINESE JUNIPER.
2½ to 3 ft. 1 75 15 00
CHYPRE OR RETINOSPORA. Shrub 3 00 35 00
1½ to 2 ft. 7 50 65 00
of very stiff growth. Branches 1 to 1½ ft. 5 00 45 00
drooping and thread-like, grayish green.
Cryptomeria japonica ................ 2 to 3 ft. 3 00
"JAPAN REDWOOD." Tall, rapid growing tree of loose open habit. 6 50 60 00
forms a large forest tree in Japan.
Cryptomeria japonica elegans ....... 2 to 3 ft. 6 00 55 00
Well known small tree with feathery foliage which turns bronze during winter.

Juniperus chinensis argenteo-variegata—
VARIEGATED CHINESE JUNIPER. 2 to 2½ ft. 1 25 10 00
Pyramidal, compact, sparing fleck- 1½ to 2 ft. 7 50 65 00
ed with creamy variegation........... 1 to 1½ ft. 5 00 45 00
Juniperus chinensis aurea .......... 1 ft. 5 00 45 00
GOLDEN CHINESE JUNIPER.
Spreading growth and good color.
Juniperus chinensis fortunei ......... 3½ to 4 ft. 1 25 10 00
GOLDEN CHINESE JUNIPER. Of dense columnar 3 to 3½ ft. 7 50 65 00
habit. Foliage silvery; handsome.... 1 to 1½ ft. 3 00 25 00
Juniperus chinensis pfitzeriana ...... 2 to 2½ ft. 1 00 8 50
Branches spreading with drooping ½ to 2 ft. 6 00 50 00
tips. Foliage slightly glaucous ...... 1 to 1½ ft. 5 00 40 00
Juniperus chinensis procumbens .... 12 to 15 in. 5 50 50 00
CREeping CHINESE JUNIPER. 10 to 12 in. 4 00 35 00
The well known Creeping Juniper with rather coarse gray foliage.
Juniperus communis hibernica ...... 2 to 2½ ft. 5 00 45 00
IRISH JUNIPER. Of dense columnar ½ to 2½ ft. 4 00 35 00
habit. Foliage silvery ............... 1 to 1½ ft. 3 00 25 00
Juniperus excelsa stricta .......... 1½ to 2 ft. 1 00 7 50 65 00
GREEK JUNIPER. Growth very 1 to 1½ ft. 5 50 50 00
regular; conical outline; foliage ½ to 2½ ft. 6 00 50 00
blue-gray.
Juniperus sabina tamariscifolia .... 2 to 3 ft. 1 25 10 00
Branches grow prostrate on the 1½ to 2½ ft. 8 00 75 00
ground. Foliage much finer and 1 to 1½ ft. 6 50 60 00
better colored than the common Savin Juniper.
Juniperus squamata ................. 1 to 1½ ft. 6 50 60 00
Of low spreading growth; foliage ½ to 1½ ft. 6 50 60 00
grayish. May be a form of Juniperus 
sabina.
Juniperus virginiana glauca ......... 2 to 2½ ft. 85 7 50
BLUE VIRGINIA CEDAR. Upright 1½ to 2 ft. 6 00 50 00
tree with arching branches and very 1 to 1½ ft. 4 00 35 00
blue foliage.
Juniperus virginiana kosteriana .... 1½ to 2 ft. 6 00 50 00
Spreading branches with drooping 1 to 1½ ft. 4 50 40 00
½ to 2½ ft. 4 00 35 00
Tips. Foliage dark green.
Picea abies. WHITE SPRUCE ....... 1½ to 2 ft. 5 00 40 00
Picea orientalis. ORIENTAL SPRUCE 1½ to 2 ft. 5 00 40 00
The most graceful of all the 1 to 1½ ft. 5 00 40 00
spruces. Branches slender; foliage ½ to 1½ ft. 5 00 40 00
very fine, clear green.
Picea pungens glauca compacta ...... 3 to 3½ ft. 3 50 32 50
A lovely and symmetrical 2½ to 3 ft. 3 00 27 50
form of the famous "Colorado Blue 2½ to 3 ft. 2 50 22 50
2½ to 3 ft. 2 50 22 50
Spruce." Silvery color very intense.
Pinus coulteri. COULTER PINE ....... 1 to 1½ ft. 2 50 20 90
Native coast species of quick 2 50 20 90
growth. Leaves long and dark green. Cones very large.

6
Pinus halepensis. ALEPPO PINE... 1 1/2 to 2 ft. Quick grower adapted to dry loca- tions.

Pinus pinaster. (P. maritima)....... 1 1/2 to 2 ft. CLUSTER PINE. Long deep green 1 to 1 1/2 ft. leaves.

Pinus resinosa. NORWAY PINE.... 1 1/2 to 2 ft. Tall growing; dark foliage. 1 to 1 1/2 ft. 2 50 20 00

Pinus strobus. WHITE PINE....... 1 1/2 to 2 ft. 3 00 25 00

Leaves very fine, soft and graceful 1 to 1 1/2 ft. 2 50 20 00

Pinus torreyana. TORREY PINE.... 1 to 1 1/2 ft. Native of Southern California. Leaves very long; dark green. Drought resistant.

Retinospora (See Chamaecyparis ob- tua andra.)

Seiropitys verticillata ............... 5 to 6 ft. UMBRELLA PINE. Japanese tree of 4 1/2 to 5 ft. remarkable appearance. Leaves very 4 to 4 1/2 ft. 2 50 32 50 200 00

long and clustered in whorls, bright 3 1/2 to 4 ft. 2 75 25 00 225 00

green in summer, bronzy in winter. 2 3 1/2 ft. 2 25 20 00 175 00

widely used as a tub plant. In hot 2 1/2 to 3 ft. 1 75 15 00 125 00

sections should be in at least par- 2 to 2 1/2 ft. 1 25 10 00 80 00

tial shade. Plants we offer are all 1 1/2 to 2 ft. 7 50 60 00

specimens; very compact, broad for 1 to 1 1/2 ft. 6 00 50 00

their height, of regular conical out- line and thoroughly acclimated.

Sequoia gigantea ..................... 1 1/2 to 2 ft. CALIFORNIA BIG TREE. Native of the Sierras; harder than the Redwood.

Sequoia sempervirens. REDWOOD.... 3 to 4 ft. Native of California coast region. 2 to 3 ft. 5 00 40 00

Attains its greatest development in 1 to 2 ft. 4 00 30 00

Humboldt County and with the pre- ceding species ranks as oldest and largest trees in the world.

Taxus baccata fastigiata— IRISH YEW. See page 5.

Taxus baccata fastigiata aurea ....... 2 to 2 1/2 ft. 1 50 12 50

GOLDEN IRISH YEW. Habit same 1 1/2 to 2 ft. 7 50

as Irish Yew but with golden-hued foliage; color particularly brilliant in spring.

Taxus baccata overeindieri ............ 3 to 3 1/2 ft. 1 75 15 00 135 00

Foliage similar to common English 2 1/2 to 3 ft. 1 25 11 00 100 00

Yew but has a dense erect habit 1 1/2 to 2 ft. 5 00 45 00

broader near base and tapering regularly to a slender tip. Unique and desirable.

Taxus baccata regandens ............. 1 1/2 to 2 ft. 1 00 7 50 65 00

Compact form of English Yew; globose habit.

Thuja occidentalis magnifica aurea .... 3 to 4 ft. 2 25 20 00

Very graceful form of Giant Arbor Vitae with intensely yellow foliage. Color held well throughout the year.

Thuja occidentalis ................... 2 to 3 ft. 3 00 25 00

AMERICAN ARBOR VITAE. Well known small tree of rather compact growth. Makes a good hedge and is very hardy.

Thuja occidentalis compacta .......... 1 to 1 1/2 ft. 3 00 25 00

Dwarf compact variety assuming oval form.

Thuja occidentalis pumila ............ 1 to 1 1/2 ft. 3 50 30 00

TOM THUMB ARBOR VITAE. Very dwarf form of slow growth with dense heath-like foliage.

Thuja occidentalis pyramidalis ...... 6 to 7 ft. 2 25 20 00

PYRAMIDAL ARBOR VITAE. Has the form of Italian Cypress but with the characteristic Arbor Vitae foliage.

Thuja occidentalis roseenthalii ....... 1 1/2 to 2 ft. 4 00 35 00 Distinct variety with dense compact 1 to 1 1/2 ft. 3 00 25 00

habit and finely cut foliage.

Thuja occidentalis sibirica .......... 3 to 3 1/2 ft. 1 25 10 00 90 00

SIBERIAN ARBOR VITAE. Compact 2 to 2 1/2 ft. 6 50 60 00

tree of broadly pyramidal growth. 1 1/2 to 2 ft. 4 50 40 00

Foliage has an unusual metallic hue 1 1/2 to 2 ft. 3 50 30 00

Thuja orientalis ..................... 1 to 1 1/2 ft. 2 50 20 00

CHINESE ARBOR VITAE. Of erect and sometimes bushy habit. Usually assumes winter tints. Grows rapidly

Thuja orientalis aurea conspicua ...... 1 1/2 to 2 ft. 1 00 7 50 60 00

Beautiful and striking form of Chi- nese Arbor Vitae with intensely yel- low foliage and slender, erect, sym- metrically tapering habit.
BROAD LEAVED EVERGREENS

(Chosen from the field unless otherwise stated)

**Abelia grandiflora**......... 1½ to 2 ft. 3 00 25 00
**Abelia triflora**............. 1½ to 2 ft. 3 00

**Albizzia lophantha** (Acacia lophantha)
from 4 in. pots 2 to 2½ ft. 2 00 18 00
from 4 in. pots 1 to 1½ ft. 1 50 12 00

**Azalea**—See page 3.

**Berberis darwinii**........... 1½ to 2 ft. 5 00 40 00

**Buxus sempervirens**. BOXWOOD. See page 5.

**Ceratonia siliqua**........... from 4 in. pots 8 to 12 in. 2 00 15 00
**CAROB; ST. JOHN'S BREAD.**

**Choisya ternata**............. 6 to 10 in. 2 00 18 00
**MEXICAN ORANGE SHRUB.**

**Coprosma baueri**............. from 4 in. pots 10 to 15 in. 1 50 12 00

**Cotoneaster franchetii**....... 2 to 3 ft. 6 00 50 00
Arching habit. Bears freely

**Daphne odora, WHITE DAPHNE**.... 6 to 10 in. 3 50 25 00
**Daphne odora marginata**..... 6 to 10 in. 3 50 30 00
**PINK DAPHNE.**

**Diosma ericoides** (D. alba)........ BREATH OF HEAVEN.

**Dodonaea viscosa**........... from 4 and 5 in. pots 1 to 2 ft. 1 80 15 00

**E. lusitanica, E. codonodes**... from 4 in. pots 8 to 12 in. 2 50 20 30
**SPANISH HEATH.** Foliage very soft and fine; flowers pale rose.

**E. lusitanica veitchi**....... 10 to 15 in. 3 00 25 00
**E. codonodes**................ 4 to 6 in. 1 50 12 00
**E. mediterranea**............. 10 to 15 in. 2 50 20 00
**MEDITERRANEAN HEATH.** Flow-
ers lavender pink; foliage dark.

**E. mediterranea hybridra**..... 6 to 8 in. 2 50 20 00
Of low compact growth; flowers
pale pink and very early.

**Erica persolata**............. 12 to 15 in. 3 00 25 00
Nearly white, faintly flushed. Spring
bloomer.

**Erica persolata alba**......... 12 to 15 in. 3 00 25 00
Pure white form of preceding; nearly
identical.

**Erica "Rose White"**........... 8 to 12 in. 3 00
Resembles *E. lusitanica* but has lar-
ger and deeper pink flowers. Very
handsome. Botanical name unknown

**Erica triumphe**.............. 10 to 15 in. 2 50 20 00
Foliage dark green; growth upright;
flowers deep pink.

**Escallonia montevicensis**..... 1 to 1½ ft. 3 00
Flowers white, borne in late sum-
mer in utmost profusion.

**Eucalyptus—Pot grown.**

- **E. ficifolia**......... from 4 in. pots—2 to 3 ft. 5 00 40 00
- **E. maculata**........ from 4 in. pots—1½ to 2 ft. 3 50 30 00
- **E. obliqua**......... from 4 in. pots—1 to 1½ ft. 2 50 20 00
- **E. viminalis**....... from 4 in. pots—1½ to 2 ft 2 00 15 00

**Eucalyptus—In flats of 75—2 00 per flat.**

- **E. kertoniana**......... 2½ to 3 ft. 1 50 12 00
- **E. rostrata**......... 2½ to 3 ft. 1 50 12 00
- **E. viminalis**....... 2½ to 3 ft. 1 50 12 00

**Eucalyptus—In flats of 75—1 50 per flat.**

- **E. bicolor**......... 8 to 12 in. 8 00 60 00
- **E. goniocalyx**....... 8 to 12 in. 8 00 60 00
- **E. kertoniana**....... 6 to 8 in. 6 00 50 00
- **E. longirostris**...... 6 to 8 in. 6 00 50 00
- **E. obliqua**......... 8 to 12 in. 8 00 60 00
- **E. polyanthemos**.... 6 to 8 in. 6 00 50 00
- **E. robusta**......... 6 to 8 in. 6 00 50 00
- **E. sideroxylon**....... 4 to 6 in. 4 00 30 00
- **E. tereteicornis**..... 4 to 6 in. 4 00 30 00
- **E. viminalis**....... 8 to 12 in. 8 00 60 00
- **E. virgata**......... 4 to 6 in. 4 00 30 00
Grevillea robusta, SILK OAK—
from 4 in. pots 1 to 1½ ft. 1 50 12 00

Hakea puzioniformis ........................................... 2 to 3 ft. 4 00

Hex aquifolium, ENGLISH HOLLY. See page 5.

Hex vomitoria, CASSENA—
from 4 in. pots 1 to 1½ ft. 3 50
from 4 in. pots 8 to 12 in. 2 50
Handsome shrub with small, smooth, crenate leaves. Bears an enormous crop of small scarlet berries.

Kalmia latifolia, MOUNTAIN LAUREL; CALICO BUSH. See page 4.

Leptospermum laevigatum, AUSTRALIAN TEA TREE—
from 4 in. pots 12 to 15 in. 1 50 12 00
from 4 in. pots 10 to 12 in. 1 20 10 00
flats of 75—10 to 15 in.—4 00 per flat.

Leptospermum nicholii, from 4 in. pots 1 to 1½ ft.
One of the best introductions of recent years. Formed a conspicuous feature of the Australian and New Zealand horticultural exhibits at the 1915 Exposition. Plant is very finely branched with slender twigs and very small leaves which are ruddy bronze. Flowers are about a half inch broad, deep garnet or claret colored and borne in great profusion. Stock very scarce.

Leucothoe cotyledon ................................. 1 to 1½ ft. 1 00 8 00 70 00
(Andromeda cotyledon). Graceful shrub with spreading arching branches and beautiful leathery leaves which turn deep bronzy red during winter. Flowers heath-like in long drooping clusters, in late spring.

Ligustrum ovalifolium, CALIFORNIA PRIVET—
bare roots 2 to 3 ft. 1 50 10 00
bare roots 8 to 12 in. 5 00

Lonicera nitida, BOX HONEYSUCKLE—
Will rank among the very best 8 to 10 in. 3 50 30 00
shrubs introduced by Wilson from China. It is a small plant of very compact and regular growth. Leaves about the size and shape of the small-leaved myrtles, deep glissening green. Will probably supplant Box for many purposes as it is handsome and far better adapted to our climate.

Mahonia aquifolium ........................................ 1 to 1½ ft. 4 00 35 00
OREGON GRAPE.

Myrica cerifera, WAX MYRTLE. 2 to 3 ft. 7 50
Shrub or small tree with elongated 1 to 2 ft. 3 50
siender leaves.

Myrtus communis ........................................ 1 to 1½ ft. 1 80 15 00
COMMON OR ENGLISH MYRTLE 8 to 12 in. 1 50 12 00

Myrtus communis microphylla ................. 6 to 10 in. 1 50 12 00
SMALL-LEAVED MYRTLE.

Praus ilicifolia integrifolia, CATALINA CHERRY.
from 4 in. pots 1 to 1½ ft. 1 60 15 00

Rhododendron. See page 4.

Spartium junceum, SPANISH BROOM.

Tilia tomentosa, TEA PLANT—
from 5 in. pots 2½ to 3 ft. 2 50 20 00

 Veronica decessata .............................. 1 to 1½ ft. 2 50 20 00

Flowers violet flowers.

 Veronica spectabilis andersoni 1½ to 2 ft. 2 50 20 00
Flowers violet purple 1 to 1½ ft. 2 00 18 00

 Veronica speciosa imperialis 1½ to 2 ft. 2 50 20 00
Flowers amaranth red 1 to 1½ ft. 2 00 18 00

 Veronica speciosa variegata 1½ to 2 ft. 2 50 20 00
Leaves variegated; flowers light 1 to 1½ ft. 2 00 18 00

Viburnum rhytidophyllum 1½ to 2 ft. 1 25 10 00
Another of Wilson's introductions from China and a magnificent addition to our evergreen shrubs. Leaves long and rather narrow, very deep green and wrinkled above, covered with brownish gray down beneath.

DECIDUOUS TREES

Acer platanoides schwedleri ................. 6 to 7 ft. 3 50
BIRCH-LEAVED MAPLE

Betula alba ........................................ 3 to 4 ft. 2 50
EUROPEAN WHITE BIRCH.

Betula alba fastigiata .................. 3 to 4 ft. 3 50
UPRIGHT WHITE BIRCH.

Betula alba pendula youngi ............. 3 to 4 ft. 4 00
YOUNG'S WEEPING BIRCH.
DECIDUOUS SHRUBS (Rare roots unless otherwise stated)

ROSES

HOLLAND GROWN

The following varieties, nearly all new sorts and among them the very latest introductions, we are importing this season from Holland. While these plants are of course not equal in quality to our California grown stock, they are all the leading Dutch growers and are the best obtainable from abroad. A large proportion of the following sorts are not yet available in American grown stock. For California grown roses see next section.

</table>
Cheerful (H. T.) ........................................ 75 6 00
Pure orange flame, the flame shading overspreading the petal, giving it a wonderful and pleasing effect. The petals are large, a distinct orange-yellow base created by the combination of color hitherto unknown in roses. Blooms large and full, perfectly formed with enormous petals.

Constance (Pern.) ......................................... 75 6 00
Vigorously growing spreading branch, with glossy green foliage and many long thorns. Bud is long, orange yellow streaked with crimson; flower globular, beautiful cadmium passing to golden yellow. Award of Merit R. H. S.; Gold Medal Paris 1914.

Coronation (H. P.) ....................................... 30 2 50
This is a rose yet raised. Flowers are borne with abundant petals, the color shading from flesh to bright shrimp pink. Gold Medal N. R. S.

Countess Camwilham (H. T.) ............................ 30 2 50
Flowers large and full; buds long and pointed. Color delicate peach pink at the base of petals which are fanned and heavily edged with deep cherry red. Gold Medal N. R. S.

C. W. Cowan (H. T.) ..................................... 25 2 00
Warm Carmine cerise. Flowers are well formed, very freely produced and delightfully fragrant.

Daily Mail — Edouard Herriot ................................

Duchess of Sutherland (H. T.) ............................ 25 2 00
Bright rose pink conspicuously veined and with lemon shading at base. Buds are very pointed and borne on many stems which carry flowers perfectly erect.

Florence Forrester (H. T.) ............................... 30 2 50
With a lemon tint in bud, becoming pure white as blooms develop. Flowers are enormous, even larger than Paul Neyron. Gold Medal N. R. S.

Geoffrey Henslow (H. T.) ................................ 30 2 50
One of the best crimson of great brilliancy. Color especially fine. Flowers large, full and globular.

Henry Vesey Machin (H. T.) .............................. 30 2 50
Intensely black-grained crimson scarlet blooms ofglobular shape and carried on rigid stalks. Flowers very large. Gold Medal N. R. S.

Iona Hirdman (H. T.) ..................................... 30 2 50
Petals orange flame; a magnificent color expanding Rayon d'Or in clearness and brightness. Easily among the very best yellows. Gold Medal N. R. S.

Leslie Holland (H. T.) .................................... 30 2 50
Deeply an impressed crimson velvety crimson. Flowers of large size and good substance.

Louise Catherine Breslaw (Pern.) ....................... 30 2 50
Coral shaded chrome yellow. Very vigorous and hardy.

Marie (Dswf—Poly) ........................................ 60 5 00
Flowers soft apple blossom pink, double, very large for the class and borne continuously in enormous clusters of the baby-polyantha class and does not grow over two feet tall. Has Wichurana blood giving it splendid foliage.

Miss Alice de Rothschild (T.) ............................ 20 1 60
Dues lime yellow, intensifying to a lemony yellow. Intensely colored, the color expanding.

Miss Cynthia Forde (H. T.) .............................. 20 1 80
Brilliant rose pink.

Mme. Edmond Herriot or "Daily Mail" (Pern.) ...... 25 2 00
Single rose red, shaded yellow at base to shrimp red. Coloring is wonderful and must be seen to be appreciated. Flowers are rather large and loose. It is a wonderfully free bloomer, practically continuous in California. Foliage very attractive. Certainly destined to attain widespread popularity as it becomes known. Won the Gold Cup offered by the Daily Mail of London and the Gold Medal of the English R. S.

Mme. Edmond Rostand (H. T.) .......................... 20 1 80
Flower flesh shaded salmon and orange. May be considered the Prince de Bavaria.

Mrs. Alfred Tate (H. T.) .................................. 25 2 00
Coppery red shaded fawn. Formed like Miss Kate Moulton with gracefully reflexed petals.

Mrs. Riccardo (H. T.) ..................................... 30 2 50
Deep honey yellow overlaid with brighter yellow. Said to be the largest yellow rose yet produced.

Mrs. Archibald Grey (H. T.) ............................ 30 2 50
Deep creamy yellow bud opening to clear light canary yellow. Buds long and pointed; flowers beautifully formed and freely produced. Gold Medal N. R. S.

Mrs. Bertram Walker (H. T.) .......................... 75 6 00
Clear bright cerise pink of a novel and distinct shade. Flowers large, very full and perfectly symmetrical. Very productive. Gold Medal N. R. S.

Mrs. Cowan (H. T.) ....................................... 30 2 50
Delicate rose pink overlaid deep carmine rose and shaded chrome yellow at base. Flowers large and full on erect stalks.

**California Grown**

The following section covers only California grown stock. (For Holland grown stock including many of the very latest novelties see preceding section). These plants are all budded, grown on new sedimentary soil and are the finest we have ever seen; they cannot fail to please you and your customers. While the list is not long it comprises most of the standard sorts and we can supply the majority of varieties in large quantities if desired. Please note that all orders for roses will be shipped from San Jose.
